

STEAM VALVE

- Installed on the Ironing equipments independent
- Fully made of heat resistant H class material
- Steam flow rate can be adjustable, Easy to operate
- Electrical parts good water-proof

Product Details

Model	DL-6F
Media	Water/Steam/Clean Air
Working type	2/2 Direct action
Pattern	Normally close
Orifice	2.5mm
Connection port	G1/4"
Working pressure	0-2.5Mpa
Max.pressure	3Mpa
Working temp.	0.1°C~180°C
Related voltage	24~240V DC/AC +/-10%
Power	AC28VA/DC20W
Insulation class	H Class
Protection class	IP65
Valve Body material	Brass
Seal material	PTFE/FKM

Overall Dimension
